

A topographic map showing terrain with various elevations. The map uses a color gradient from light yellow (low elevation) to dark brown (high elevation). A prominent ridge runs diagonally from the top left towards the center. The text 'TABLE OF CONTENTS' is centered on the map.

# PLAY FAIRWAY ANALYSIS – OFFSHORE NOVA SCOTIA

PLAY FAIRWAY ANALYSIS - OFFSHORE NOVA SCOTIA - CANADA - June 2011

## Nova Scotia Play Fairway Analysis Atlas

Executive Summary					Annexes		
Acknowledgements							
Table of Contents							
Chapter 1		Introduction	9-1 to 9-24	Enclosures Chapter 9			
	1-1	Regional Geology			Annex 2		Well Data Base for Workstation
	1-2	Production History				1	LAS files – 107 wells with_wirelines
	1-3	Exploration History and Well Failure Analysis				2	Checkshot
Chapter 2		Plate Tectonics				3	Directional Survey
						Table 2-1	Catalogue log suite – 97 wells
Chapter 3		Stratigraphy			Annex 3		Well Data Package
	3.1	Introduction				1	DMC well collection markers original
	3.2	Lithostratigraphic Overview				2	Well collection Masterlogs
	3.3	Biostratigraphy				3	Litholog from 85 composite well log charts (R. Fensome)
	3.4	Chronostratigraphic Cross Sections				4	Biostratigraphic well log charts (Nov 2010 RPS)
	3.5	Geological Cross Sections				5	PHI-K core analysis (DMC data)
Chapter 4		Petroleum Geochemistry				6	Well Template – Xsect lithostrat (2011 Beicip-Franlab)
	4-1	Introduction				7	Well Template – Xsect Bible Lines (2011 Beicip-Franlab)
	4-2	Hydrocarbon Occurrences				Table 3-1	Casing list with specifications on 193 wells
	4-3	Data				Table 3-2	Core well list
	4-4	Source rocks			Annex 4		PFA Study Results - Well logs
Chapter 5		Seismic Interpretation				Table 4-1	Formation tops and biostratigraphic surfaces for 136 wells
	5-1	Seismic Database				Table 4-2	GR min-max for Vsh calculations and PHIE
	5-2	Well Seismic Calibration				Table 4-3	Lithologies for 51 wells
	5-3	Structural Mapping			Annex 5		PFA Study Results – Reservoir properties
	5-4	Bible Line Interpretation				Table 5-1	Early Jurassic, Triassic and Basement wells
	5-5	Seismic Reservoir Characterization				Table 5-2	Reservoir thickness – Gross and Net to Gross on 51 wells
Chapter 6		Tectono-stratigraphic Evolution and Petroleum Systems				Table 5-3	Misaine Gross Thickness
	6-1	Introduction				Table 5-4	Naskapi Gross Thickness
	6-2	Triassic – Callovian Sequence				Table 5-5	Reservoir Properties (CNSOPB data)
	6-3	Oxfordian – Tithonian Sequence				Table 5-6	Compiled Reservoir Characteristics (CNSOPB data)
	6-4	Berriasian – Aptian Sequence			Annex 6		Petroleum Results
	6-5	Albian – Cenomanian Sequence				Table 6-1	Well test summary (CNSOPB data)
	6-6	Late Cretaceous – Tertiary Sequence				Table 6-2	Hydrocarbon shows
Chapter 7		Basin Modeling				Table 6-3	Oil density from tests
	7-1	Temis 1D				Table 6-4	Overpressure well list and details
	7-2	Temis 2D				Table 6-5	Significant Discoveries oil&gas by formation (CNSOPB, 2011-04)
	7-3	Temis 3D					
Chapter 8		Petroleum Evaluation			Annex 7		References and Bibliography
	8.1	Structural Provinces and Traps			Annex 8		Special Project: Report G. Pe-Piper (2011) Sedimentology
	8.2	CRS Mapping			Annex 9		Special Project: Report A. Karim and G. Pe-Piper (2011) Sedimentology
	8.3	Petroleum Event Charts					
	8.4	Hydrocarbon Volumes					
Chapter 9		Late Jurassic Carbonates Play Fairway Analysis – Addendum to Play Fairway Analysis			Annex 10		Special Project: Report C. Beaumont (2011) Salt Tectonics
	9-1	Introduction			Annex 11		Special Project: Report J. Hanley (2011) Fluid Inclusions
	9-2	Depositional Models			Annex 12		Special Project: Report Y. Kettanah (2011) Fluid Inclusions
	9-3	Biostratigraphy					
	9-4	Petrography and Diagenesis			Annex 13		Special Project: Report J.-C. Sibuet et al. (2011) Plate Tectonics
	9-5	Petrophysics					
	9-6	Sequence Stratigraphy			Annex 14		Special Project: Report K. Loudon et al. (2011) Seismic Refraction
	9-7	Structural Mapping					
	9-8	Seismic Characterization					
	9-9	Gross Depositional Environment Maps					
	9-10	CRS Mapping					
	9-11	Petroleum System					
	9-12	Conclusions
